Dear Judge Gorton

I am writing you to inform you of my current situation my lawyer MR Novak has run into his own legal troubles and he has informed me he now doubts his effectiveness in representing me. I hired MR Novak to file a motion to surcharge, vacate three cases and go to trial with me he has not fulfilled any of his obligations to me yet and it looks like he won't.

I have spent my last dollar on MR Novak and I am scheduled for trial on Nov 18 and I am still eligible for Career Criminal enhancement although he has two of the three old convictions open for review, the board of overseers has informed my wife that MR Novak could be suspended at anytime, so I will need a public defender. Also my wife and I are going through proper channels to have some money returned from MR Novak.

I have been waiting trial one year, with MR Novak's minor set back I've been told I could have me sitting another year, if it is possible

for ms Rue to make a fair offer I  
would be open to except it, to save s  
all time and money.

Thank you for taking time to read the letter.

Respectfully Submitted
